

Brian Angwenyi

AI LANGUAGE EVALUATOR · SWAHILI & OROMO CONTENT SPECIALIST

Nairobi, Kenya brianwriter33@gmail.com +254 718 422 308

Versatile AI language evaluator and content professional with a strong background in Swahili and Oromo media writing, translation review, and AI response quality assessment. Five years of experience producing and auditing language-specific content for digital platforms, combined with two years of dedicated AI data work across pairwise evaluation, annotation, and human-feedback collection. Fluent across three languages with C2-level English, enabling precise calibration of AI model outputs for East African language markets.

WORK EXPERIENCE

Freelance AI Language Evaluator

Self-Employed — Remote

Feb 2024 – Present

- Evaluate AI-generated text in Swahili, Oromo, and English for factual accuracy, tone appropriateness, cultural sensitivity, and instruction adherence
- Complete pairwise comparison tasks and response ranking assignments for RLHF model fine-tuning pipelines across multiple AI clients
- Tag and label collected datasets including audio clips, image descriptions, and conversational data in Swahili and Oromo language contexts
- Write adversarial and edge-case prompts to stress-test LLM capabilities in multilingual scenarios; submit structured feedback reports per client rubrics
- Deliver 95%+ quality scores across concurrent projects; consistently praised for cultural accuracy in East African language tasks

Senior Swahili Content Specialist

TransPerfect Global — Remote

Jan 2020 – Jan 2024

- Reviewed and edited Swahili translations of marketing, legal, and technical content for global brands entering East African markets
- Led quality assurance reviews for AI-assisted translation outputs, identifying systematic errors and providing structured feedback to improve automated translation tools
- Coordinated Oromo-language localization projects for NGO clients, managing terminology consistency and cultural adaptation across deliverables
- Trained and mentored a team of six junior reviewers on Swahili style guidelines and client-specific content standards

Digital Journalist & Fact-Checker

Nation Media Group — Nairobi, Kenya

Jun 2016 – Dec 2019

- Produced daily English and Swahili digital news articles covering tech, business, and social affairs for a 2M+ monthly readership platform
- Led the editorial fact-checking desk, verifying claims in submitted articles against primary sources and reducing published errors by 35%
- Introduced structured annotation of reader-submitted UGC content to support the platform's moderation and archival pipelines
