

Habakkuk Wasike

AI DATA SPECIALIST · ANNOTATION & MULTILINGUAL LANGUAGE EXPERT

Nairobi, Kenya superquality3080@gmail.com +254 701 871 812

Meticulous AI data specialist with 6+ years of hands-on experience in data annotation, multimodal labeling, and content quality review. Brings native fluency in both Oromo and Swahili with a strong technical grounding in AI training pipelines. Experienced across diverse annotation modalities — text, image, audio, and video — with a proven ability to maintain high accuracy under flexible remote work conditions.

PROFESSIONAL EXPERIENCE

AI Training Data Specialist

Scale AI Marketplace — Remote (Freelance)

Feb 2023 – Present

- Annotate image, video, and audio datasets for computer vision and speech AI models, including bounding box labeling, object tracking, and audio segmentation
- Perform pairwise response evaluations and instruction-adherence scoring for large language model fine-tuning projects
- Carry out counting tasks and multimodal tagging assignments in Oromo and Swahili language contexts
- Maintain annotation accuracy above 97% across all active projects; onboard to new task schemas within 24 hours
- Contribute to multilingual RLHF datasets by reviewing and ranking AI-generated responses in East African language variants

Data Quality Reviewer

Sama (formerly Samasource) — Nairobi, Kenya

May 2020 – Jan 2023

- Reviewed and validated annotation outputs from a team of 12 labelers across image segmentation, text classification, and audio transcription tasks
- Flagged and corrected labeling errors, ensuring datasets met client quality thresholds before handoff to AI engineering teams
- Annotated Swahili and Oromo speech datasets used in multilingual voice assistant development
- Contributed to internal QA guidelines, reducing rework rates by 22% over an 18-month period

Multilingual Content Moderator

Teleperformance Kenya — Nairobi, Kenya

Aug 2017 – Apr 2020

- Moderated user-generated content in Swahili, Oromo, and English across social and e-commerce platforms, applying client-defined content policies
- Reviewed flagged posts for harmful content, misinformation, and policy violations with consistent decision accuracy above 94%
- Mentored four new moderators on content guidelines and escalation workflows during onboarding cycles

Data Capture & Records Officer

Kenya National Bureau of Statistics — Nairobi, Kenya

Oct 2016 – Jul 2017

- Captured, verified, and entered survey data collected in English, Swahili, and Oromo during the 2016 national household survey
- Maintained structured data records and identified inconsistencies for field follow-up, improving data completeness by 15%
